Appeal Reason: Ministerial and Clerical error by consultant on behalf of the applicant consultant. The 2016 Category Two application #161049861 was filed in error. The Recipients of Service listed only one location BEN: 82002 Matthews Elementary School. The Recipients of Service should have been for the district admin site and also the Dollarway High School site. The 2016 470 #160029957, clearly stated that all locations were to be considered for Category Two Internal Connection requests. But after careful consideration of need with limited budgets available, the applicant elected to use the most competitive bid information and only for the two aforementioned applicant sites and not Mathews Elementary. The consultant filed for only the Mathews Elementary site in error. The school and the selected service provider, acted accurately in deploying the selected technical solution but only the two aforementioned site and none was deployed at the Mathews Elementary site. Therefore, we are requesting that the budgets for the two aforementioned sites be debited for the approved funding and to also restore the Mathews C2 budget accordingly. All other program rules have been adhered to.

Please contact me if you have any further questions about the application.

Thank you in advance for your consideration in this important matter.

Sincerely,

John Egan
